

Large Character Printing and Fault Detection Ink Jet Fluids

Ink Jet Fluids That Meet Or Exceed OEM Standards

- Exacting filtration standards eliminate more particulate matter than OEM inks
- ISO 9001 manufacturing standards ensure consistent formulations
- Protected by the industry's only comprehensive warranty
- Printhead cleaning program for guaranteed performance
- Delivery within three working days on most orders
- Custom formulations available on request

The Industry's Best Warranty

The inks and related fluids we supply for use in non-impact coders and printers are carefully selected and undergo extensive laboratory performance analysis prior to introduction. Graphic Controls warrants its products are free from defects in material and workmanship and will provide full replacement or credit for products which we supply that are defective and returned by the customer.

Graphic Controls also warrants that its inks and related fluids will not cause excessive or abnormal wear to the ink jet printer/coder.

This warranty excludes normal wear and tear to the printer/coder.
